Company Profile
**Who We Are**

EEA Consulting Engineers is a full service mechanical, electrical and plumbing (MEP) consulting firm serving new and existing facilities in all market sectors. Founded in 1977 in Austin, Texas, as an energy conservation engineering consultant, EEA has since grown to offer MEP design, building commissioning, LEED consulting, as well as continuing its leadership in energy conservation.

EEA has successfully completed projects worldwide in both prime and sub consultant roles and is licensed in all 50 United States and the District of Columbia.

Our engineers have extensive experience with energy analysis and design, which has grounded them in the fundamentals of mechanical and electrical engineering. The many years of working with clients in both new and existing occupied facilities has demonstrated the importance of reliability and flexibility in system design. These experiences have also given us the ability to quickly achieve appropriate solutions to technically challenging problems in fast-track design and design/build projects.
Our Commitment

- Fostering long-term relationships
- Hearing and addressing the client’s needs.
- Being fun to work with.
- Doing “whatever it takes” to meet the project schedule.
- Thoughtfully applying engineering fundamentals to develop appropriate + innovative design solutions.
- Providing reliable and flexible systems.

Over 80% of our business is with repeat clients.
In 2018, we surveyed our customers to find out what characteristics of an MEP firm matter, and how we measure up in those areas. **We learned that the most important traits our clients look for are Engineering Expertise, Appropriate Design Solutions, Responsiveness, and Breadth of Experience.** Our 40+ years of project experience, wide variety of building and project types, and commitment to respond to calls and emails within one business day set us apart from the competition in the areas that matter most. See how we stack up against the competition, and let us know how we can serve you!
